Re:

Legal Contact, and Copies of Renewed Permit and Notices of Violation ("NOVs") for

Rico Development Corporation

CDPS Permit No. CO-0029793; Dolores County

Dear Mr. Webster:

According to the attached letter from David L. Sell to James Horn of the Colorado Department of Health, dated December 2, 1993, Mr. Sell is alleging he is no longer your legal contact. As president of Rico Development Corporation ("RDC"), you need to appoint another or confirm this legal contact. The submittal of a letter designating the legal contact and containing both parties' signatures would suffice. For a definition of legal contact, please see the Regulations for State Discharge Permit System, 6.5.1.

The Division also needs documentation of RDC's corporate structure. Please provide the Division with the names of the owners, officers of RDC, and members of the Board of Directors, and shareholder information which certifies who the responsible parties are for this site and the above permit.

Also enclosed are a copy of the Permit and Rationale, issued December 30, 1993; and copies of the June 29, 1993, and January 18, 1994, NOVs, as you requested.

If you have any questions regarding these matters, please contact me at (303)692-3603.

Sincerely,

Kathleen L. Kalamen

Industrial Enforcement Engineer
